

## CERTIFICATE

This is to certify the

**HENCO PN16 SYSTEM**

with type designation(s)

**Henco Standard Multilayer pipe (PE-Xc/AL/PE-Xc)**

**Henco Vision**

**Henco Press**

**Henco Brass Press**

The Henco PN16 system is suitable for installations complying with the application classes 1, 2, 4 and 5 of ISO EN 21003-1 (table 1) with a maximum pressure of 16 bar. The installation instructions mentioned in the Henco Technical Manual must be applied for this PN16 system.

The system is available in diameter 16x2; 20x2; 26x3 and 32x3 and is composed out of the new Henco Standard multilayer pipe in combination with the Henco Vision, Henco Press or Henco Brass Press fittings.

It is obliged to make the press connection for diameter 32x3 with the BE32 jaw or with the BE-UNI + BE32H jaw.

This certificate is valid until **2017-12-31**

Issued at **Herentals** on **14-04-2014**

Approval Engineer: **Dirk Vroman**
